

PAUL DEEP

Paul Deep is a South African House Music producer. Started off as a DJ in 2007, moved on to producing in 2009 August due to phasing out of vinyl. Released his first production with Seasons Limited in 2010 March as a remix for Word Of Love by Arnaud D featuring Sheyi on vocals. His remix went on to be record label owner Jamie Thinnes' favorite mix and was released on Vinyl. Which led to Paul achieving his personal goal too early in his music career.

As if that was not enough, in 2011 March, Paul went on and released his debut single 'Alafia' with NuluMusic(NYC) & it became an instant hit with top international djs adding Alafia to their playlists. It was licensed by Louie Vega(Vega Records) for his 2011 CD Compilation called Mad Styles & Crazy Visions 2. And also Alafia was released on vinyl as part of the compilation thru BBE Music & Vega Records.

In 2013 thru Quantize Recordings Paul released his second single called Run Away featuring Jayla. Was remixed by some of the best producers in the business, Maurice Joshua, Chris Burns and Gianni Jnr. It also became a success.

In-between his official releases, Paul has shared some of his work on Soundcloud for free. And also these has proven that there's more coming from Paul in the future. One of Paul's key to success is "PATIENCE" & "PASSION".
