

## **SOULFULEDGE**

Involved professionally in Dance music since 2001, UK Producer/DJ Soulful Edge has worked tirelessly the 'right' way through the industry, earning his stripes through hard work & a desire to learn - a combination which has seen him quickly rise through the ranks and establish himself amongst the scene's elite. Instantly hooked on the US sound since the mid 90's, and heavily influenced by pioneering labels such as Basement Boys, Soulfulic, Naked Music & Yelloworange, Soulful Edge's love & connection with the sound was immediate, and laid down the foundations for his own productions today.

It was through his time at Defected Records in the mid noughties which first brought him together with DJ Spen, where the pair struck up an instant friendship - and the rest as they say is history! Now an integral part of the Quantize machine, Soulful Edge's productions have featured across both Quantize & Unquantize as well as being proudly invited to take on a volume of the Quintessential Mix series.

A&R, producer, remixer, label boss, DJ & radio host - welcome to the world of Soulful Edge!
